THE T-DRILL PROCESS

PLUS 100 System for stainless steel

Used with T-65 heavy duty collaring machine PLUS 100 attachment increases T-65's collaring capacity up to 114 mm. It is always a natural addition to T-DRILL's portable machine family when making tee joints in a main run tube.

By eliminating two welded joints it gives you a comparable quality and flexibility to commercial tee fittings on the worksite on in the fabrication shop.

DO IT WITH T-DRILL

Cut costs – Improve quality – Increase profit

- No T-fittings
- No costly inventories
- No tube cutting

- Only one butt welded joint
- Minimized inspection cost
- Tee ratio variation flexibility

- Smaller risk of leakage or call-backs
- Optimized flow-characteristics
- Hygienic, clean weld points
